

Yue Li, Ph.D. Candidate.

Department of Bridge Engineering, Tongji University, China
Institute of Mechanics of Materials and Structures (imws), TU Wien, Austria

✉ yue.li@tuwien.ac.at ☎ +42067764886521
📄 <http://www.researchgate.net/profile/Yue-Li-95>

Research Area

- Multiscale modeling of concrete material
- Meso-macro translation of durability simulation
- Trans-scale deterioration intelligent evaluation

Education

- 2023 – ···· ■ **Ph.D., Vienna University of Technology (TU Wien)** in Civil Engineering (Professor Bernhard Pichler).
Thesis title: *Durability analysis of bridge structures in a mesoscopic and multiphysics approach.*
- 2019 – ···· ■ **Ph.D., Tongji University** in Civil Engineering (Professor Xin Ruan).
Thesis title: *The theory of the bridge concrete multi-scale modeling and the intelligent prediction of structural durability.*
- 2016 – 2018 ■ **M.E. Tongji University** in Architecture and Civil Engineering (Professor Xin Ruan).
Thesis title: *The meso-macroscopic translation method on the simulation of bridge concrete component chloride ingress.*
- 2012 – 2016 ■ **B.E. Hebei University of Technology** in Road and Bridge Engineering.

Experiences

- 2022 – ···· ■ **Visiting Ph.D. Student** in imws, TU Wien, (Professor Bernhard Pichler).
Research work: *The prediction of bridge concrete structural durability with multiscale method.*
- 2019 – 2020 ■ **Visiting Research Fellow** in Department of Civil and Environmental Engineering, Waseda University, Japan, (Professor Mitsuyoshi Akiyama).
Research Project: *Durability test of SFRC and material modeling based on X-ray image.*
- 2016 – 2016 ■ **Internship.** in BOLINA Ingegneria s.r.l, Italy, (Professor Tobia Zordan).
Research Project: *Calculation of wind load and check of construction plan, Matagarup Bridge, Perth, Australia.*
